Subject: RE: OTHER PAGE CHGS? - FW: Groundwater Monitoring Report - April 2013 Monitoring Event

I have advised Martin—for now—to let the two existing documents remain as they are, and only delete the yellow “New!” bubbles. He is to add the new report at the top of this list of documents, with a yellow “New!” bubble. We may choose to delete the “Draft Summary of Radium Results” document later on, but that does not have to be decided today.

Should the two links and NOTE circled below at www.epa.gov/region7/cleanup/west_lake_landfill be modified, once the new report is posted? Seems like at least the NOTE should be reworded. Thanks -MK

West Lake Landfill

- **New!** [Draft Summary of Radium Results - April 2013 Groundwater Sampling \(PDF\)](#) (6 pp., 154K, [About PDF](#))
NOTE: The preliminary data in this table will be followed later by a full report. These data were gathered during the sampling. Please refer to the map below for monitoring well locations.
 - **New!** [Map of Sampling Locations \(PDF\)](#) (1 pg., 2.7MB, [About PDF](#))
- [News Release, June 20, 2013: EPA to Hold Public Meeting Tuesday, June 25, at Pattonville High School at Landfill Site](#)

Principles and integrity are expensive, but they are among the very few things worth having.

Attached is an electronic version of the text, tables and figures for the April 2013 Groundwater Monitoring Event. Hard copies of the report, that include a compact disk of the Appendices, are also being sent to those who have requested hard copies as indicated in the transmittal letter. Please contact me if you have any questions or need anything else. Thank-you, Paul
